

Action Civics Curriculum

**Mikva
Challenge**

Issues to Action

This cornerstone curriculum provides a six step process for youth activism that asks students to examine their communities, identify issues of importance to them, conduct intensive primary research about these issues, analyze power, develop strategies, and take action to impact policy — while reflecting on the process throughout.

Project Soapbox

Project Soapbox teaches students how to develop and deliver a speech on an issue they feel passionately about. Students identify qualities of a good speech, learn how to structure a speech, employ rhetorical devices and qualities of effective speech delivery. Project Soapbox culminates with students presenting their speeches to their peers and community.

Student Voice Committee

This curriculum provides a framework and structure for implementing a youth governance body at your school. The activities are written for use in an after school program for youth to work in collaboration with their principal to institute changes within their school.

Elections in Action

Elections in Action is a curriculum that engages students in learning about campaigns and elections by having them explore their own ideologies, learn about the candidates and get involved in electoral politics through a variety of scaffolded actions.

News.Voice.Power.

This news literacy curriculum engages students in developing the skills and knowledge to be critical news consumers then has them employ those skills to utilize media to bring change around an issue that they care about.
